

**ROSARY HAVING AUDIBLE AND/OR VISUAL INDICATORS  
AND RELATED METHODS**

**Abstract of the Disclosure**

A rosary includes a flexible elongate member and a plurality of beads carried thereby. The rosary may also include a sensor, and an audible indicator carried by the flexible elongate member for providing an audible indication based upon the sensor. The rosary may further include a visual indicator, in addition to or in place of, the audible indicator. The visual indicator may also be carried by the flexible elongate member for providing a visual indication based upon the sensor.
